Antioxidant Protection for Dietary Products

Today's market is driven by innovative dietary snacks, from sugar-free products, fiber cookies, rice cakes and other better-for-you options. Yet, one of the biggest challenges in developing these products is **oxidation**, which can compromise their stability, taste, and nutritional value. Adding natural antioxidants helps keep these foods fresh, nutritious, and appealing throughout their shelf life.

At Btsa, we offer Tocobiol[®], a 100% natural antioxidant specially designed to protect dietary products, preserving their nutrients, sensory qualities, and shelf life while supporting clean label formulations.

Tocobiol[®]

reliable & versatile performance

- Shields against **oxidation and rancidity**
- Preserves **nutrients, taste, color, and freshness**
- Ensures **stability during heat and processing**
- **Clean label solution in liquid, powder & water-dispersible forms**
