oxabiol.

Natural Oxidation for Next-Generation Pet Grooming

The growing **pet care cosmetics** market demands **safe, natural, and effective formulations**. Yet, products rich in natural oils, like **paw sticks, balms, and pet coat care**, are **highly prone to lipid oxidation**. This not only reduces product efficacy but also causes unpleasant odors, discoloration, shorter shelf life, and potential skin irritation, highlighting the **need for a reliable, oil-compatible antioxidant solution**.

At Btsa we offer OXABIOL®, a 100% natural antioxidant based on mixed tocopherols. Specifically designed for lipid-rich pet care formulations, it integrates seamlessly to maintain stability, safety, and effectiveness.

Oxabiol®

reliable & versatile performance

- **Natural antioxidant** protection
- Preserves **organoleptic properties**
- Extends **shelf life** without synthetic additives
- **Pet-safe ingredients**
