Naturally Preserving the Essence of Spices

In today's market, spices are often exposed to **light, air, and heat**, especially when stored in translucent packaging. These conditions speed up **oxidation**, causing them to lose their color, aroma, and flavor. **Protecting these valuable ingredients requires a smart, natural solution.**

At Btsa, we offer TOCOBIOL®, a natural antioxidant based on Tocopherols, specially developed to slow down oxidative processes in spices.

It helps preserve the full sensory profile while extending their color, stability and shelf life.

Tocobiol®

Versatile & reliable performance

- 100% **natural origin**
- Available in **liquid and powder** format
- **Easy to incorporate**
- **Durable** under harsh production methods
